

Preparing for Your COVID - 19 Antibody Treatment

To be considered you must have a positive + Covid-19 Test, Symptoms do not Comply with receiving Regeneron Monoclonal Antibody Therapy

- ⇒ **Start Drinking Extra fluids like water prior to your appointment.**
- ⇒ **Staying hydrated helps fight Covid-19.**

Regeneron Monoclonal Antibody Administration Day!

- ⇒ **Start your day as usual**

No special preparation is needed before your infusion. Eat a nutritious breakfast, stay well hydrated, and take your usual daily home medications.

- ⇒ **Wear comfortable clothing and be sure your shirt sleeves and shirt can be rolled up to allow access to the back of your arms, and stomach. The sites of administration are the thighs, abdomen, and behind the arms.**

Some people feel chilly during the injection because the medication is cooler than your body temperature. Dressing in loose layers with an easily removable jacket and warm socks can help.

- ⇒ **Bring something to keep your mind busy for before and after your treatment as there is a 60 minute wait time after the treatment.**

Most importantly: Wear a mask!

You will be asked to wear a mask over your nose and mouth when you are around other people to help stop the spread of COVID - 19.
